

WELLH

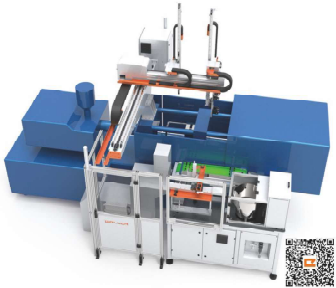

提供汽车行业自动化、信息化智能解决方案
集成在线检测、质量追溯、物流、仓储等，结合过程控制和MES系统，实现柔性制造

换挡片注入注塑成型系统
Inserting the Injection Molding System for Automotive Shift Plate

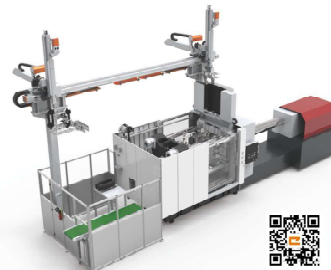

发动机缸盖插入检测系统
Inserting And Detection System For Engine Cylinder Lid

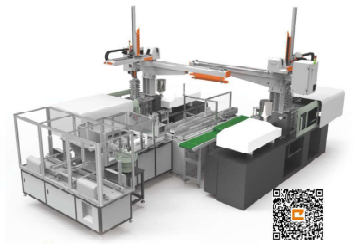

螺杆轴插入系统
Inserting System for Screw Shaft

轴类机器人取出系统
Axle robot taking out for decoration series

电源支架在线注塑成型系统
Power Bracket Online Injection Molding System

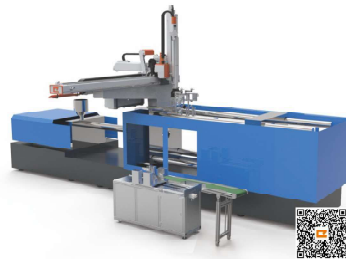

蓄电池插入系统
Inserting System for Battery

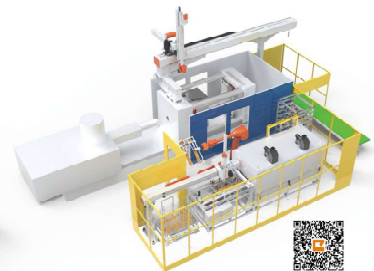

引擎冷却风扇模内插入注塑自动化系统
In molding Inserting Molding Automatic System For Cooling Van On Automobile Engine

ABC无纺布插入系统
Automation Flannel Inserting System For Automotive Pillar/ABC

中众球手前臂取入系统
Endlocking And Taking Out System For Audi A6L Bracket

麻板加热插入注塑自动化系统
heating and inserting Automation system for Hemp Plate

Automotive automation informatization intelligent solution
Integrating on-line detection, vision, laser, logistics and other systems, and interacting with MES, achieve intelligent production line with integration of industrialization and informatization.
